📊 Group Project Report & Poster for LegCo Submission

GCAP 3226: Empowering Citizens through Data

Group Assignment • 30% of Course Grade

🎯 Assignment Overview

Produce a comprehensive policy analysis report (~3,000 words) and an accompanying visual poster for potential submission to the Legislative Council (LegCo).

This assignment requires your team to conduct in-depth research on a Hong Kong public policy issue, analyze data governance practices, and develop actionable recommendations. The poster serves as a visual summary that should pique the interest of lawmakers and stakeholders to read your full report.

⏰ Important Deadlines

📅 Submission Deadline: 11:00 PM, December 7, 2025

Submit your final report and poster by replying to this Moodle forum discussion thread. You may submit in HTML, plain text, or as a link to a public GitHub repository file.

Start working early to ensure you have time to refine your report and poster!

?

📝 Report Requirements (~3,000 words)

1. Introduction

Clearly articulate the problem, your research questions, and the relevance to SDG 11 (Sustainable Cities and Communities). Explain why this policy issue matters for Hong Kong and what gap your research addresses.

2. Background

Provide context about the policy issue, relevant existing policies and plans, and the current state of data governance related to this topic. Document what data is available and what data is missing.

3. Data Analysis

Conduct quantitative analysis using appropriate mathematical models (simulation, regression, or other appropriate methods). Evaluate data governance issues, including data availability, transparency, and how improved data collection could enhance decision-making. Include visualizations and clear interpretation of results.

4. Community Engagement

Describe your community engagement activities, including interactions with stakeholders, government staff, or community members. Document your use of AI tools throughout the project and explain how they supported your work.

5. Recommendations

Provide actionable solutions for relevant stakeholders (government, lawmakers, NGOs, community groups). Base recommendations on your data analysis and clearly explain how improved data governance could lead to better policy outcomes.

6. Conclusion

Summarize key findings, acknowledge limitations of your study, and suggest directions for future work. Reflect on what you learned about data-driven policymaking and data governance.

> #### 📎 Required Appendix
>
> **Draft Email to LegCo Panel Secretary:** Include a draft email that your team would send to the relevant LegCo panel secretary to request circulation of your report among lawmakers. This should be professionally written and clearly explain the purpose and value of your report.

🎨 Poster Requirements

Poster Specifications

📐 Required Dimensions

- **Size:** A1 (594mm × 841mm / 23.4" × 33.1") - This is the standard size for academic and policy posters, suitable for both digital display and printing.

- **Orientation:** Portrait (vertical) orientation is recommended for readability and standard presentation formats.
- **Aspect Ratio:** Maintain a 1:1.414 ratio (A-series standard) if you need to adjust slightly for digital platforms.

Format: Submit as a Canva link or Google Slides link with commenting enabled (anyone with the link can comment). This allows for feedback and collaboration. Ensure your poster is set to the A1 dimensions specified above.

Content Structure: The poster content and structure should mirror that of your report, serving as a **visual summary that piques the audience's interest** to read the full report.

Design Standards: Professional, clear, and engaging presentation with effective use of visuals, charts, and concise text. Use a readable font size (minimum 24pt for body text, larger for headings) and ensure sufficient white space for clarity.

Poster Content Elements

- Visual summary of key findings from your data analysis
- Clear presentation of your research questions and problem statement
- Concise recommendations for stakeholders
- Key data visualizations and charts
- SDG 11 relevance and policy context
- Contact information or QR code linking to full report (if applicable)

> 📋 **Credit Statement (Required)**
>
> **Both the report and poster must include a Credit Statement** that clearly documents **who did what for the report and poster**. This should specify each team member's contributions to different sections of the report, data collection, analysis, poster design, and other project components. This promotes accountability and ensures fair recognition of individual contributions.

🤝 Teacher Support & AI-Assisted Drafting

💡 Option: AI-Assisted Report Drafting

Teams are strongly encouraged to share raw data, drafts, and outlines with the teachers, who will use AI agents to draft a report that your team can further revise and refine.

> ⚠️ **Important: 7-Day Advance Notice Required**
>
> If you wish to use this AI-assisted drafting option, you **must approach the teacher at least 7 days in advance** before the report deadline. This ensures adequate time for the AI agents to process your materials and generate a draft for your team to review and revise.

Sharing your work-in-progress with teachers also allows for early feedback and guidance, helping ensure your final report meets quality standards.

✅ Quality Assurance & LegCo Submission Process

🎯 Our Goal: Submit Reports to LegCo

Our plan is to submit high-quality reports to the relevant LegCo panels. However, this submission is subject to quality assurance by the teachers. Teams may be invited to further revise their reports until they meet the standards required for sharing with lawmakers.

> **📌 What This Means for Your Team:**
>
> - Your initial submission will be reviewed by teachers for quality and readiness
> - If revisions are needed, your team will receive feedback and be asked to revise
> - Only reports that meet quality standards will be submitted to LegCo
> - This process ensures that lawmakers receive professional, well-researched policy analysis

This quality assurance process is designed to maximize the impact of your work and ensure that your policy recommendations are presented professionally to decision-makers.

📤 How to Submit Your Report

💡 Flexible Submission Options - Choose What Works Best

Reply to this Moodle forum thread to submit your final report. We accept submissions in multiple formats to accommodate different workflows. The only requirement is that your submission must be **machine-accessible and readable**.

> **✅ Accepted Submission Formats:**
>
> - **Option 1: HTML Code** - Copy and paste your HTML-formatted report directly into your Moodle forum reply
> - **Option 2: Plain Text** - Submit your report as plain text with clear section headings and formatting
> - **Option 3: GitHub Link** - Share a link to your report file in a public GitHub repository (must be publicly accessible)
> - **Option 4: Any Other Machine-Readable Format** - As long as we can programmatically access and read your submission, it's acceptable

> **⚠️ Important Requirements:**
>
> - Submissions must be **machine-accessible** (no password-protected files, no private repositories)

- If using GitHub, ensure the repository is **public** and provide the direct link to your report file
- For poster submissions, include your Canva or Google Slides link with **commenting enabled for anyone with the link**
- Your submission should include **both the report and the poster link**

Example submission formats: You can structure your reply with clear headings like "Report:" followed by your content, and "Poster:" followed by your Canva/Slides link. Use whatever format makes your submission clear and accessible.

📊 Assessment Rubrics

Your report and poster will be evaluated using the following detailed rubrics. Review these carefully to understand how your work will be assessed.

📝 Report Rubric (20% of total grade)

Criteria	Excellent (90-100%)	Good (75-89%)	Satisfactory (60-74%)	Needs Improvement (<60%)
Content & Completeness (25%)	All 6 sections complete, comprehensive, and well-developed. Clear research question, thorough background, detailed analysis, strong recommendations.	All sections present with good coverage. Minor gaps in some areas. Research question clear, adequate background and analysis.	Most sections present but some lack depth. Research question somewhat unclear. Background or analysis incomplete.	Missing sections or significant gaps. Unclear research question. Superficial treatment of topics.
Data Analysis & Methodology (25%)	Appropriate mathematical model selected and correctly implemented. Clear interpretation of results. Excellent visualizations. Strong connection between analysis and recommendations.	Model appropriate and mostly correct. Good interpretation. Adequate visualizations. Clear connection to recommendations.	Model selection questionable or implementation has errors. Basic interpretation. Limited visualizations. Weak connection to recommendations.	Inappropriate model or major implementation errors. Poor interpretation. Missing or unclear visualizations. No clear connection to recommendations.

Criteria	Excellent (90-100%)	Good (75-89%)	Satisfactory (60-74%)	Needs Improvement (<60%)
Data Governance Evaluation (20%)	Comprehensive evaluation of data availability and gaps. Deep insights into governance practices. Well-articulated proposals for improvement.	Good evaluation of data landscape. Some insights into governance. Reasonable improvement proposals.	Basic evaluation of data. Limited insights. Vague improvement suggestions.	Minimal or missing data evaluation. No clear insights. No improvement proposals.
SDG 11 Alignment & Policy Relevance (15%)	Strong, explicit connection to SDG 11. Clear relevance to Hong Kong context. Compelling policy impact potential. Evidence of stakeholder engagement.	Clear connection to SDG 11. Good Hong Kong relevance. Reasonable policy impact. Some stakeholder engagement.	Weak connection to SDG 11. Limited Hong Kong relevance. Unclear policy impact. Minimal stakeholder engagement.	No clear connection to SDG 11. Little Hong Kong relevance. No policy impact. No stakeholder engagement.
Writing Quality & Organization (10%)	Excellent clarity, professional writing, logical flow, proper citations, error-free.	Good clarity and organization. Minor errors. Adequate citations.	Some clarity issues. Organizational problems. Several errors. Incomplete citations.	Poor clarity and organization. Many errors. Missing citations.
Appendix & Requirements (5%)	Professional draft email to LegCo secretary. Complete credit statement. All requirements met.	Good draft email. Complete credit statement. Most requirements met.	Basic draft email. Incomplete credit statement. Some requirements missing.	Missing or poor draft email. Missing credit statement. Many requirements not met.

🎨 Poster Rubric (10% of total grade)

Criteria	Excellent (90-100%)	Good (75-89%)	Satisfactory (60-74%)	Needs Improvement (<60%)
Visual Design & Layout (30%)	Professional, visually appealing design. Excellent use of color, typography, and white space. Clear visual hierarchy. Follows A1 dimensions correctly.	Good design with minor issues. Appropriate use of design elements. Clear layout. Correct dimensions.	Basic design. Some layout issues. Inconsistent use of design elements. Minor dimension issues.	Poor design. Cluttered layout. Inappropriate design choices. Wrong dimensions.

Criteria	Excellent (90-100%)	Good (75-89%)	Satisfactory (60-74%)	Needs Improvement (<60%)
Content & Clarity (25%)	Content mirrors report structure perfectly. Key findings clearly presented. Concise, readable text. Effective use of headings and sections.	Content aligns well with report. Most key findings present. Generally clear and readable.	Content partially mirrors report. Some key findings missing. Text too dense or too sparse.	Content doesn't mirror report. Key findings missing. Unclear or confusing text.
Data Visualizations (25%)	Excellent, clear visualizations. Appropriate chart types. Well-labeled with titles and legends. Easy to interpret. Supports key findings.	Good visualizations. Mostly appropriate chart types. Adequate labeling. Generally interpretable.	Basic visualizations. Some inappropriate chart types. Missing labels. Difficult to interpret.	Poor or missing visualizations. Inappropriate chart types. No labels. Cannot be interpreted.
Professional Presentation (10%)	Highly professional appearance suitable for LegCo. Appropriate for target audience (lawmakers). Polished and error-free.	Professional appearance. Generally appropriate for audience. Minor issues.	Somewhat professional. May not be fully appropriate for audience. Several issues.	Unprofessional appearance. Not appropriate for audience. Many errors.
Alignment with Report & Requirements (10%)	Perfectly mirrors report structure and content. All required elements present (SDG 11, recommendations, etc.). Complete credit statement.	Good alignment with report. Most required elements present. Credit statement included.	Partial alignment. Some required elements missing. Incomplete credit statement.	Poor alignment. Many required elements missing. Missing credit statement.

> **Note:** The report accounts for 20% and the poster accounts for 10% of the total 30% assignment grade. Both components are essential and will be evaluated according to these rubrics.

📤 Ready to Submit?

Submit your final report and poster by replying to this Moodle forum thread!

Use any machine-accessible format: HTML, plain text, or a public GitHub link.

✅ Final Checklist:

✓ Report is approximately 3,000 words with all required sections

✓ Poster created in Canva or Google Slides with commenting enabled

✓ Poster dimensions set to A1 (594mm × 841mm / 23.4" × 33.1")

✓ Credit statement included in both report and poster

✓ Draft email to LegCo panel secretary included as appendix

✓ You have submitted your report via Moodle forum reply (HTML, plain text, or GitHub link)

✓ Your submission is machine-accessible and readable

✓ Report and poster are ready for quality assurance review

Questions? Contact Dr. Wang or Dr. Wu if you need assistance or clarification.

Start working on your report and poster now - this is a substantial assignment that requires careful planning and collaboration!
